

**Schedule of Fees and Charges to be paid to the Borough of Swarthmore during the year 2010
Adopted by Borough Council December 21, 2009**

Where fractions of units of measure are involved, they are always rounded to the highest whole unit.

I. SUBDIVISION AND LAND DEVELOPMENT AND STORMWATER MANAGEMENT (DRAINAGE) PLANS

Fees are noted below as administrative and review fees. Administrative fees are the basic cost for the application and are not refundable. Review fees are used to offset the Borough's expenses related to plan reviews. Each applicant, owner, subdivider or developer seeking approval of any plan for subdivision, land development, and/or stormwater management shall place into escrow an amount determined by the Borough to cover estimated costs for engineering reviews and/or inspections, professional planning reviews (not including the County Planning Commission and/or Conservation District application fees), specialized legal services, and other professional services used by the Borough in conjunction with the application. From this review fee escrow, the Borough shall pay invoices of the professionals as they come due. Where the review fee escrow is determined to be insufficient during the processing of an application, the Borough may request additional funds from the applicant before the application is processed further. Any amount remaining in the review fee escrow account after the applicant's plans have been completed or withdrawn will be refunded to the applicant. However, there will be no refunds of amounts paid from escrow for work previously done.

- **Application for curative amendments, changes to the Zoning Map or change in the text of the Zoning Code:** \$350 + any additional administrative or review costs incurred by the Borough

III. BUILDING AND HOUSING

Applicants for permits shall pay a fee based on the schedule below. Fees are based on the estimated project cost. The Building Code Official may require the applicant to provide a contract or other similar documentation to verify the estimated project cost. All permits will be assessed the Commonwealth of Pennsylvania Uniform Construction Code Fee (\$4 as of the date of adoption of this resolution).

All contractors, including those licensed exclusively by the Commonwealth of Pennsylvania, must carry minimum insurance of \$500,000 Combined Single Limit (CSL) and Workers' Compensation Insurance as required by law.

***Green Points:** To encourage green building, the Borough provides incentive to use green building techniques and materials, called Green Points. Each Green Point awarded reduces the permit fee by 1%, to a maximum reduction of 50% of the permit cost. All permit applicants may apply for Green Points to reduce the amount of permit fees. All required documentation for compliance must be submitted with the Green Points Worksheet; final decision for reduction of fees will be determined by the Building Code Official.*
