

BOROUGH OF SWARTHMORE
RESOLUTION NO. 2010 -

A Resolution establishing a Schedule of Fees and Charges to be paid to the Borough of Swarthmore during the year 2011

BE IT RESOLVED that the Council of the Borough of Swarthmore does hereby establish the following schedule of fees and charges to be paid to the Borough during the year 2011. Where fractions of units of measure are involved, they are always rounded to the highest whole unit.

I. SUBDIVISION AND LAND DEVELOPMENT AND STORMWATER MANAGEMENT (DRAINAGE) PLANS

Fees are noted below as administrative and review fees. Administrative fees are the basic cost for the application and are not refundable. Review fees are used to offset the Borough's expenses related to plan reviews. Each applicant, owner, subdivider or developer seeking approval of any plan for subdivision, land development, and/or stormwater management shall place into escrow an amount determined by the Borough to cover estimated costs for engineering reviews and/or inspections, professional planning reviews (not including the County Planning Commission and/or Conservation District application fees), specialized legal services, and other professional services used by the Borough in conjunction with the application. From this review fee escrow, the Borough will pay invoices of the professionals as they come due. Where the review fee escrow is determined to be insufficient during the processing of an application, the Borough may request additional funds from the applicant before the application is processed further. Any amount remaining in the review fee escrow account after the applicant's plans have been completed or withdrawn will be refunded to the applicant. However, there will be no refunds of amounts paid from escrow for work previously done.
